WHAT DOES ETHNN DO?

COLLECTIVE ACTION

ETHNN is a backbone organization working to reduce poverty through initiatives in education, employment, healthcare, housing, and transportation. When we work together toward shared goals, we can solve the complex challenges that impact our community.

UNDERSTANDING POVERTY

The Bridges Out of Poverty framework is designed to bring people of all economic classes, races, and political persuasions to the table to address causes of poverty and create a sustainable community. Educational workshops include Bridges Out of Poverty, Poverty Simulations and Getting Ahead in a Just Gettin' By World.

903HELP.ORG

An online social services directory designed specifically for your community/county/region ensures that your neighbors can find help in times of need.
